MODERN LUXURY SPOTLIGHT

Wendy Meltzer Owner

FACES OF design

At Unique Hardwood, Wendy Meltzer is the maven of luxury, European-made, engineered flooring. With a new gallery and showroom at Costa Mesa's SOCO design center, Unique Hardwood is the exclusive Orange County dealer for Legno Bastone, a 100 percent natural European flooring product made from sustainable white oak. Unique Hardwood's flooring can be found in luxurious homes from Crystal Cove to Laguna Beach, Corona del Mar and Palm Springs, and Meltzer prides herself on offering a product that gives the look of custom flooring at an affordable price point.

"I truly believe beautiful floors anchor exceptional interior design," says Meltzer. "We work with designers, architects and their clients early in the design process. It's crucial to select a product that sets the right tone for the rest of your space." That's exactly what Unique Hardwood products

do. Their technically advanced, engineered hardwood is more stable than solid hardwood. It resists cupping and seasonal movement, which is crucial for Southern California's coastal climate, and it's UV-cured with all-natural hard wax oil finish. With wider widths and longer lengths, it's also more aesthetically pleasing. "I love when our clients do creative things with our flooring, like using it to line their walls or ceilings, or to add design flair to their fireplace."

Committed to her customers, Meltzer provides extended hours for designers and architects to visit the showroom with their clients anytime that suits them. Her products are also in stock within a seven-to-ten-day lead time, which has become increasingly rare in the industry. She says, "I'm involved from start to finish and love the long-term relationships I've developed with my clients."
